"RENO DAY," SEPTEMBER 21

This is the FIRST ANNUAL TRUCKEE-CARSON FAIR and arrangements are being made to make the event a grand success.

Exhibits of livestock, produce, machinery, articles of manufacture, vehicle and automobile display, etc. Many attractions in the way of races and games, broncho busting, shows, dances, etc. Prizes, prizes or premiums will be given to all winners.

It is expected that the SUGAR FACTORY will be in operation and may be inspected by the public. The LAHONTAN GOVERNMENT DAM, now being constructed, in which there will be used over 800 carloads of cement, may also be visited. These are the two greatest things that Nevada is now developing and mean great things for the entire state.

Why Send Out of Town for Your Printing

When you can have first-class work done right here, by first-class union printers.

The business man who sends out of town for his printing injures his own business as well as that of others. While on the other hand the man who patronizes home institutions increases the town's pay roll, and thereby builds up his business.

The printers and book binders in the cities of surrounding states do not come here to spend their money

Do You Know

That the Bonanza has an up-to-date Job Printing Plant and one of the best equipped Ruling and Binding Plants in the West?

MAJOR GARDNER LOCATES COPPER

Antelope valley is to be the scene of great mining activities this fall, if all goes as now planned. Major Gardner has located a promising property in the district and yesterday the incorporation papers were filed and the stock will be placed upon the market at once. In speaking of the property yesterday, Mr. Gardner said:

"We have had this property for some time and have been sampling it and prospecting on a small scale and have become satisfied that we have something of value. So promising is the outlook that several miners have volunteered to go to work at once on the property and take wages out of the stock of the company. We feel that we will be able to develop a big property at once. The property is located near Topaz in Antelope valley, and we have a showing of copper and lead which is some two hundred feet in width and the cropping extends from five hundred feet in length. There is absolutely no country rock nor quartz between the walls and the vein lies in a contact between delamite and diorite. History of copper mining tends to show that croppings of this character foretell large deposits of high-grade ore."—Carson News.

TWELVE MILLIONS IS THE TAX ROLL OF HUMBOLDT CO.

HUMBOLDT'S ASSESSMENT ROLL
 OVER \$2,000,000 LARGER
 THAN LAST YEAR.

The assessment roll for this year has been completed by County Assessor Leonard and lists mailed to the more than 1200 taxpayers.

The footings of the roll show that the total valuation of real estate in Humboldt county this year is \$9,792,948, an increase of \$1,819,072 over last year.

The valuation of personal property for 1911 is \$1,987,151, an increase of \$272,227 over last year. The total valuation of real and personal property is \$11,780,100, an increase of \$2,091,299 over last year.

These figures are most significant as indicating the present prosperity and the growth of Humboldt county in taxable wealth during the past year.—Humboldt Star.

SENATOR NIXON SPENDING VACATION IN LONDON

Immediately after the adjournment of the special session of congress, Senator Nixon left for London, where he is expected to remain until about the 15th of next month. Representative Roberts is still in Washington, attending to the department business of his constituents. The date of his return to Nevada is uncertain.—Silver State.

CHILD BURNED TO DEATH IN FIRE AT ELY

Fire, said to have been caused by the overturning of a lamp, last night destroyed the Magnuson buildings, the residence and outbuildings of Peter Altman, and several log cabins between those properties and the Nevada Northern railroad in Lane City.

The two-year-old child of Mr. and Mrs. Ed Rowley was burned to death in the Magnuson building. Mr. Rowley is a churn drill man employed by the Nevada Consolidated and was at work at Copper Flat at the time of the fire. Mrs. Rowley and five other children barely escaping with their lives.

Deputy Sheriff Ed Weal found the remains of the child whose fire had subsided somewhat. When the alarm was given John Steele went into the building to search for the child, but was unable to locate it, so rapid was the progress of the flames.

The child's head and trunk were found by Weal at a place near the west side and middle of the building on the springs of a bed, and it must have been in a different room from the ones Steele searched. The arms and legs were burned from the body and almost entirely consumed. The child's name was Kenneth and it was the next youngest of the family of six children.—Ely Expositor.

INTERESTING FACTS ABOUT MULTIPLICATION OF FLIES

A female house fly which has hibernated in a dwelling-house or elsewhere may produce in the spring, at the lowest estimate, 120 eggs. Assuming that one-half of these hatch as females, and allowing that the breeding goes on without check for four months, we have as the descendants of a single hibernating individual 214,557,844,320,000,000,000,000 flies. Now, a house fly measures exactly one-fourth of an inch in length; the distance around the earth at the equator is said to be 24,800 miles. It would take, therefore, 3,688,312,000 flies placed end to end to go around the world once. Using this number as a denominator, and the number of flies produced in four months from one mother as a numerator, we find she will give rise, in the course of a summer, to nearly enough flies to encircle the globe at the equator 5,000, and have plenty of progeny to spare.

CROSS CONTINENT WITH A MOTORCYCLE

Two-traveled stain individuals, riding equally weather-beaten motorcycles, arrived in Winnemucca at 3 o'clock yesterday afternoon. They were William Naryauskas and Joe Baltusis of Springfield, Mass., who left New York on July 31, to ride across the continent to San Francisco. They are mounted on "Indian" motorcycles, two-speed, four-horsepower, 1911 model, fitted with tires manufactured by the United States company.

The journey is being made for the express purpose of testing the tires, and the cyclists claim that they made the run from New York to Winnemucca with the one set, and that indications are that they will last for the balance of the journey.

Last night was spent at Battle Mountain, and the speedometers on the machines registered 65 miles when they stopped in front of the Central bar, the distance having been covered in about eight hours.

INDIAN GIRL STILL ABSENT FROM THE INDIAN SCHOOL

The Indian girl, "Snake," has not returned to the Indian school at Carson City as yet and no trace has been found of her, although it is believed that she is hiding in some of the surrounding towns and will return to the school before long. She has always shown a strong feeling for the little brothers and sisters and has carefully watched over them, and it is now thought that this feeling will cause her to return. She was lead to depart from the institution through the coaxing of the older girl, and one who has always been a truant.

CONSOLIDATED AUTO COMPANY. Carrying United States mail and express makes daily trips from Tonopah to Manhattan and Round Mountain. Cars leave Tonopah daily on arrival of mail and leave Manhattan at 2:30 p. m.
